Team DRONE from **Sri Bhagawan Mahaveer Jain College of Engineering** in its first International appearance created history by becoming **the first Indian team** ever to win an award at the annual **SAE Aero Design** event held at **USA**. Over 60 teams from the USA and other countries participated in this prestigious event. The event included a design report, technical presentation, review and inspection of the system built alongside flying that was peer reviewed by experts from NASA and Lockheed Martin.

Team DRONE won a **Third place listing in Design and Development** at Atlanta in the recently concluded event during Apr 2 to Apr 5 2009. **The team was also honored with**

a NASA Systems Engineering Honorable Appreciation Award. In the flying category the team finished fourth
