About Jain University

Jain University is a renowned university in Bangalore and leader in learning, teaching and research. Working with a vision of fostering human development through Education and Entrepreneurship the university offers undergraduate, postgraduate and research programmes in arts, science, commerce and technical education.

The Centre for Disaster Mitigation (CDM) set up by Jain University addresses issues related to natural and man made hazards with focus on loss reduction and prevention. The centre conducts research, teaching, testing and consultancy in the areas of earthquakes, floods & droughts, fire safety engineering and industrial waste utilization with a view to develop a group of well trained man power catering to the ever increasing needs of the country in the field of Disaster Mitigation.

About UL

Underwriters Laboratories (UL) is an independent product safety certification organization that has been testing products and writing Standards for Safety for over a century. UL evaluates more than 19,000 types of products, components, materials and systems annually with 20 billion UL Marks appearing on 72,000 manufacturers' products each year.

UL University's (ULU) workshops provide first hand, real time, industry critical information designed to aid in decision-making processes, necessary to reach compliance. UL programmes not only cover UL Standards, but also address specific topics intended to help customers and constituents create and/or install safe products, increase efficiency and provide faster access to global markets.

About the workshop

The workshop is designed to improve fire safety through applying understanding of a comprehensive fire protection approach. The workshop focuses on the following:

- A comprehensive approach, because no element can ensure complete fire protection
- Commercial occupancies, as it is these occupancies that are more strictly regulated by building, life safety and fire codes
- The alignment of codes, enforcement and appropriate product safety standards becomes the practical application of the comprehensive fire protection approach

Resource persons

- Faculty from Jain University
- Faculty from UL University
- Fire Safety specialists from Industry

Objectives of the workshop

- Describe the impact of historically significant building fires on building codes, fire codes and product test method development
- Describe the components of a comprehensive fire protection approach and benefits of its use, both reactively and proactively
- Explain the independent third party product certification process and the benefits of its use
- Recognize the impact of smoke and fire paths in the selection of mitigating tools, applicable codes and fire safety standards
- Compare test results (water only vs. extinguishment agents)
- Communicate final observations and provide a summary of investigation

Who should attend

- Fire safety organizations, building code and public health officials, fire protection engineers, building owners, contractors, manufacturers and installers of fire protection equipment
- Insurance companies
- Architects and structural engineers
- University teachers and students
- Government disaster management officials

Registration Fee

Rs. 7500/- per participant. Group registration of three or more persons at Rs. 5000/- per participant. University students and teachers interested in Fire Engineering R&D will be registered at Rs. 3000/- per person. Fees include lecture material, lunch and refreshments.

Venue

Jain University - School of Graduate Studies
J C Road, (Adjacent Bangalore Stock Exchange)
Bangalore 560 027

Last date for registration

10th January 2010

Workshop on Building Fire Protection

21st & 22nd January 2010

Registration Form

Name _____

Designation _____

Department _____

Organisation _____

Address _____

Phone / Mobile _____

Fax _____

E-mail _____

Details of Demand Draft (DD must be drawn in favour of "SBMJCE" payable at Bangalore)

• Bank Name _____

• DD No. with Date _____

Signature of the applicant

Sponsorship

Mr/Mrs _____ is sponsored to participate in two day workshop on "Building Fire Protection"

Date: _____

Signature

Place: _____

Head of the Institution with seal

Note: Photocopies of registration form can be used for multiple registrations. Registration by email is permitted.
