BACHELOR OF INTERIOR DESIGN
PROGRAMME GUIDE

www.jainuniversity.ac.in

PROGRAMME OVERVIEW

The Bachelor of Interior design is an idea-led profession, concerned with the relationships between people and the surrounding environment. Students learn that the design of interiors is not confined to the inside of buildings, but addresses spatial and temporal concerns, ranging from the intimacy of a finely crafted object to the urban fabric of a city. Students use a range of skills to push current boundaries including high-level visual and verbal communication and presentation techniques, model making, technical design documentation, and the ability to work with light, sound, video and computer-based programmes.
