

## ABOUT SET JU

The School of Engineering and Technology, Jain University (SET, JU), is a highly renowned Engineering Institution located in Bangalore. SET was established in 2005. SET offers 7 Undergraduate and 9 Post Graduate courses. Our staff consists of highly accomplished individuals who hold Postgraduate and Doctoral degrees. 2500 students are currently enrolled in various branches of Engineering. SET under take cutting edge research in areas such as Nano Technology, Food Technology, Disaster Mitigation, Polymers, Medicinal Chemistry, Remote Sensing Sensor Networks, Cloud Computing, Big Data Analysis, X-ray Crystallographic Studies. Moreover, SET has collaborated with leading organizations such as ISRO, Infosys, Cognizant, HAL in order to enhance research and academic activities.

SET has realized that education can go beyond the conventional boundaries. Remarkable facilities and diverse co-curricular activities serve these educational purposes. Our well maintained campus provides a sense of persistent vision, stability and management. Besides classroom teaching, SET emphasizes on intensive interactions between students and mentors. It also provides state-of-the art infrastructure facilities.

## CONFERENCE OBJECTIVE

The national conference on *Recent Advances in Sustainable Materials (RASM)* is the forum to present new advances & research results in the fields of sustainable materials and their interdisciplinary areas. The conference will bring together leading academic scientists, industrialist and research scholars in the domain of interest from around the country.

Topics of interest for submission include, but are not limited to:

- ◆ Advances in supplementary cementitious materials
- ◆ Concrete durability and performance specifications
- ◆ Special concrete and applications
- ◆ Advances in characterization of construction materials
- ◆ Sustainable building systems
- ◆ Self compacting concrete
- ◆ Polymer composites in bridge rehabilitation
- ◆ Repair and conservation of heritage structures
- ◆ Repair materials and repair systems for concrete structure
- ◆ Corrosion control and corrosion monitoring in concrete structures
- ◆ Control low strength materials
- ◆ Geo-polymer concrete

## CALL FOR PAPERS

Interested Academicians, Scientists, Industry Personnel, Research Scholars & Students are invited to present Papers/Posters on mentioned above themes. The full length paper should not be more than six pages in given format shall reach the organizing secretary on or before 1<sup>th</sup> March 2017 at
