

New M.Tech programme in Green technology to be launched at Jain University

Jain University, Bangalore is going to launch a new age M Tech course with specialization in Green technology. The programme will be launched at the International Conference on Energy, Environment and Eco-friendly Buildings ICEEEB which will be conducted by Jain university.

The university has decided to launch the course for the enhancement of knowledge and implementation of green technology in buildings and infrastructure. The course has been developed in collaboration with institutes like Indian Green Building Council (IGBC).

Green technology has broader applications. It is the development and application of products, equipment and systems which are used for the conservation of the natural environment and resources in order to mitigate the negative effects of human activities.
