Unique M.Tech programme

Jain University, a deemed-to-be-university, in collaboration with Indian Green Building Council (IGBC), has launched a unique two-year M. Tech programme in Building Science and Technology (with specialisation in Green Technology).

This four-semester programme with an intake of 18 seats will commence in 2014. The modules covered include Environmental and Sustainable Engineering, Green Technology, Carbon Footprint and Measurement for all building types, Modern Materials, Construction and Characterisation, Life Cycle Assessment and Materials Selection, Building Rating Systems with case studies, Retrofitting of buildings, and Renewable Energy. The pedagogy and the curriculum have been designed keeping in view the professional demand for cutting-edge technology solutions to address the sustainability challenges.

Speaking on the launch of the M.Tech programme, N. Sundararajan, Vice-Chancellor, Jain University, said, "We have joined hands with IGBC for the programme, to develop competent professionals with required techno-managerial skills in Building Science and Technology, with emphasis on Green Technology."

Graduates of this M.Tech programme will have good career opportunities and growth in the infrastructure, energy, real estate sectors, township development, etc., both within India and overseas.

Eligibility criteria for admission to this programme include a pass in B.E./B.Tech degree or its equivalent in Civil / Mechanical Engineering with not less than 50 per cent marks in aggregate. The SC/ST category of

candidates will require at least 45 per cent.

The other eligibility conditions are as per university regulations.
