

### **BIOZEEN launches MSc Ind Biotech with Jain University**

To further its efforts in bridging the industry – academia gap, BIOZEEN launched a unique programme in M.Sc Industrial Biotechnology in collaboration with Jain University.

Through this collaboration BIOZEEN, with its (Bio) Pharmaceutical experience and expertise, would be an extended arm to the university in its activities towards nurturing skills and developing industry ready academia, by way of workshops, projects, seminars by BIOZEEN faculty at the university and training programmes.

On the launch of this programme Vibin Joseph stated, "This symposium marks the beginning of a new era in the delivery of Biotechnology courses and aims at nurturing industry ready talent who are industry aligned in terms of their aptitude and attitude. This programme was a brain child of two organisations – BIOZEEN & Jain University who are constantly striving towards facilitating a better future for the Biotech Community in India today."
