**'LITTLE STEPS' IN  
COMMUNITY SERVICE**

The Students of Jain University's Department of Information Technology have started Little Steps, a community service programme which encourages students to be aware of social problems and become active participants in community service. Recently, they organized a programme for the Desire Society, a non-profit voluntary organisation whose objective is the health, well-being and development of children living with HIV/AIDS. Magician Puttaraju conducted a magic show. A mask making workshop kept the children entertained. The event concluded with a matinee premier of the animated feature 'Dumbo', created by the Department of Animation. Chief guest Dr Rajini Jairam, Dean of Student Welfare, Jain University, praised the students for their initiative.
