SEE, I AM A GRADUATE

On Tuesday, cricketer Robin Uthappa went down memory lane with his fiancée Sheetal Gautam, as a proud alumnus at the Jain University. He reminisced how he had applied to several colleges in Bangalore for an Arts course. Apparently, the college gave him a surprise call asking if he'd be interested in joining them. Uthappa told them that he wouldn't be able to join them since they didn't have the Arts course which he was looking for. To which the response was, "We'll start one for you." Of course, that was a line. He ended up studying BCom there.
