

## About JAIN (Deemed-to-be University)

Established to provide a quality learning experience and entrepreneurial skills, JAIN (Deemed-to-be University) is an educational hub that draws aspiring students from more than 54 countries to India's Silicon Valley - Bengaluru. Spread across five campuses, the University has been consistently ranked among the top private universities in the country by India Today Nielsen Best Universities Survey. Over a decade, the University has made conscious efforts to build its strengths and consolidate its achievements. JAIN (Deemed-to-be University) has also received Graded Autonomy status by University Grants Commission based on its accreditation, given by National Assessment and Accreditation Council (NAAC) with an 'A++' Grade and Certified ISO 9001:2015 for quality management by TÜV Nord. From academic discoveries to athletic records, from artistic creations to scientific breakthroughs, students at JAIN (Deemed-to-be University) are defining success in many different ways.

## TEDxJainUniversity

The culture of holistic development and skill enhancement resonates within the walls of JAIN (Deemed-to-be University). The association shared between JAIN (Deemed-to-be University) and TEDx is manifested by its constant commitment to exposing students to newer and better educational facets.

As a testimony to this statement, we present you with the second edition of TEDx, with the enlightening theme of “**Disruption: The Path to Change**”. This edition is bigger, better and bolder with a plethora of speakers from all walks of life to imbibe knowledge and share their stories with others so that one day they have stories of their own.

### Theme:

#### **Disruption: The Path to Change**

The big bang was a massive explosion of gases that led to a universe-altering string of events but at its crux, the explosion was a disruption of the way things were before it. When man first found fire, he disrupted the ways of eating uncooked food. The invention of the steam engine changed the trajectory of transportation and it too was a disruptive change.

Time marches on and it is up to us if we want to be the harbingers of change or get left behind in the rubble of what used to be. In today's complex and ever-changing world, it is important that we remain on top of the advances in every field to remain relevant and have a vast skillset upon which growth is constant. It is important that we understand these disruptive forces and implement changes from them so we may grow.

TEDx provides to individuals a disruptive force as it breaks them away from the usual school of thought and pushes them to become free thinkers. The platform with its various gifted speakers brings new ideas to individuals as they prepare to venture into an extremely competitive world; thereby giving them an edge over the rest.

**Date:** 4<sup>th</sup> February 2023 | **Time:** 09:00 AM – 04:00 PM

**Location:** Basava Samithi Bhavan, High Grounds, Sampangi Rama Nagar, Bengaluru, Karnataka 560001
