

POST CODE- 5

Job Reference: AK-JRF/02/2014

One JRF Position in Chemistry Available in the Group of Dr. Amit Kumar (Associate Professor, CNMS, Jain University)

Applications are invited for one post of a Junior Research Fellow for a project entitled “**Development of a new recyclable and widely applicable platform for industrially important process**” at **Centre for Nano and Material Sciences (CNMS)**, Jain University, Bangalore, Karnataka, India.

Qualification and Experience:

1. M. Sc. in Chemistry, Candidate should have obtained at least 55% marks in qualifying degree examination
2. Preference will be given to CSIR-UGC NET (JRF/ LS) or GATE qualified candidate.
3. The ability to work closely and collaborate with colleagues is a must. Proficiency with the English language is required

Stipend:

The JRF fellowship consists of Rs.15000/- per month and Rs. 1000/- for PF and PT as per university rule. The salary and appointment terms are consistent with the current rules for PhD degree students.

Duration:

Initial appointment for one year, extendable up to 4 yrs based on performance. Objective of the 4 years position is a number of research articles in peer-reviewed scientific journals, together comprising the PhD thesis leading to the granting of the PhD degree at the Jain University.

How to apply:

Application should contain a detail resume, one photograph, contact details including phone number, email and postal address, photocopies of educational/professional qualifications. **Please also mention preferred date of joining if selected.**

Completed applications should reach Dr. Amit Kumar, Associate Professor, Bioinorganic and Clinical Chemistry Group, Centre for Nano and Material Sciences (CNMS), Jain Global Campus, 45 km, NH - 209, Jakkasandra Post, Kanakapura Taluk, Ramanagar District -562 112, Bangalore Rural, Karnataka, India by **5th April, 2014**. Applicants are encouraged to apply through e-mail (E-mail: amit.kumar@jainuniversity.ac.in).

Please also arrange at least two references that may be contacted regarding your recent work. Only shortlisted candidates will be called for the interview. Selected candidates will be intimated by email. No

TA/DA will be paid for appearing in the interview.

Project involves:

New widely applicable methodologies are needed to easily prepare catalysts encompassing the requirements of Green Chemistry. Our aim is to design, synthesize and test new efficient transition metal catalysts, namely for asymmetric (and non-asymmetric) synthesis of chiral sulfoxides, epoxidations, halogenations, aminations and allylic hydroxylations, allowing the use of greener oxidants (mainly H₂O₂ and O₂) and develop an unified and more practical methodology to prepare recyclable catalysts.
