## **ABOUT JAIN (Deemed to be UNIVERSITY):**

Jain (Deemed to be University), an intellectual destination that draws inspired students from more than 35 countries to India's Silicon Valley – Bengaluru, has established with an aim to provide quality education and entrepreneurial development. Because of its commitment to learning, research, academia and entrepreneurial development, National Assessment and Accreditation Council (NAAC) has awarded 'A' Grade to Jain (Deemed to be University) with a CGPA of 3.31 on a 4-point scale. A culturally vibrant campus constituting of students from various states contributed to achieving this award which reinvigorates the culture and rich academic traditions of the University. Over the years, the University has made conscious and concerted efforts to build on its strengths and consolidate its achievements. Certified ISO 9001:2008 for quality management by TÜV Rheinland, Jain (Deemed to be University) is a member of Association of Universities of Asia and the Pacific (AUAP). Jain (Deemed to be University) has also been awarded 4 stars in the Young University category in Karnataka by KSURF iCARE Ratings for teaching excellence and employability, infrastructure, research excellence, inclusiveness, and social impact.

## **About School of Commerce Studies**

Empowerment of students, enhancement of values and enrichment of academics & research has been the hallmark of the School of Commerce Studies, Jain (Deemed to be University) for nearly three decades. The constant innovations nurtured in its various spheres of functioning, which include global tie-ups such as ACCA, CIMA, CMA, CIPS, etc. and experiential learning practices like Student Immersion Programmes, Entrepreneurs on Training and Business Simulations, amongst others have characterized the growth of the School of Commerce Studies over the years. The School has a dynamic set of experienced and research oriented faculty members whose number exceeds 100 and draws over 5000 students from various countries towards a keen learning environment.

## **ABOUT THE FACULTY DEVELOPMENT PROGRAMME:**

We may be building faster schools, but creation of skills is by good teachers rather than good schools. The education system in India will pave the way to enable people to actually capitalise on the fourth Industrial revolution. Technology is no more becoming an option, it is becoming mandatory need for people to upgrade themselves. Change is only constant on earth, but what is noticeable today is speed of Change. Technology such as block chain, Artificial Intelligence, Automation and Internet of things form the substratum of fourth Industrial age and in turn completely revamping the Accounting & Taxation domain. A platform is being provided for every commerce teacher to get insight about what is changing and how academic delivery has an impact. It seems that there is no replacement for true knowledge and being aware of most important changes would certainly help all of us.

## **OBJECTIVES OF THE PROGRAMME:**

- To provide an opportunity to the teaching fraternity for updating their knowledge about digitalization in the field of Accounting & Taxation.
- To appraise the academicians about the application of digital Innovation in Accounting & Taxation.
- To help teachers take a look at impact of AI, Automation and IoT on Industrial revolution.
- To provide insights about the resources available to get the updates and changing Accounting & Taxation regulations.
