## ABOUT THE UNIVERSITY:

Jain (Deemed-to-be University), an intellectual destination that draws inspired students from more than 38 countries to India's Silicon Valley – Bengaluru, was established with an aim to provide quality education and entrepreneurial development. Due to its commitment to learning, research, academia and entrepreneurial development, National Assessment and Accreditation Council (NAAC) has awarded 'A' Grade to Jain (Deemed-to-be University) with CGPA of 3.31. A culturally vibrant campus constituting of students from various states contributed to achieving this award which reinvigorates the culture and rich academic traditions of the University. Over the years, the University has made conscious and concerted efforts to build on its strengths and consolidate its achievements. Certified ISO 9001:2015 for quality management by TUV Nord, Jain (Deemed-to-be University) is a member of Association of Universities of Asia and the Pacific (AUAP). Jain (Deemed-to-be University) has also been awarded five stars in the Young University category in Karnataka by KSURF iCARE ratings for teaching excellence, infrastructure, inclusiveness and social impact.

## ABOUT SCHOOL OF COMPUTER SCIENCE & IT:

The School of Computer Science & IT offers graduate and post graduate programs in CS with specializations in Animation, Gaming, Data Analytics and DFM. The school has total strength of over 1500 students, with highly qualified, motivated and experienced faculty members. The school strongly emphasizes on learning fundamentals and analyzing latest technology to develop student's creativity and encouraging them to take up projects with varying levels of complexity. To meet the past dynamic technological changes, efficient training sessions are provided on curriculum subjects and beyond. The course work is designed in such a way that it closely intricate with the vision of the school to provide excellent quality education for the student with necessary skills to build computing systems for a better society. The school ensures continuous skill enhancement and holistic development of students through various club activities, workshops, conferences, seminars and so on. The school has a unique lab facility with IOT Lab as well.

## ABOUT INURTURE EDUCATION SOLUTIONS PVT. LTD.

Established in the year 2009, iNurture is the pioneering organization in enabling career-ready, formal higher education in India. It strives to strengthen 'employability quotient' across the complete spectrum of adult learning - from colleges to corporate and the Mission is to become thought leaders by defining education in sectors that will matter in the future and also to become the largest provider of career-ready students to industry. iNurture powers new-age undergraduate and postgraduate programs of premium Indian and global universities through its unique University-Industry Partnership (UIP) model. iNurture also leverages its strong industry association by providing guest lectures, internships, curriculum design assistance, industrial visits, live projects, and placement assistance. With a pan-India presence and association with leading institutions in Europe and Asia, iNurture focuses on fast-growing domains that are specifically designed to 'intelligently nurture' students for emerging industries and prepare them for 'new' collar jobs.

## ABOUT THE CONFERENCE:

This conference is to further foster the development of mimicking the functions of the human brain through various means, including natural language processing, data mining and pattern recognition. It is expected to have a drastic effect on the way that humans interact with technology in coming years, particularly in the fields of automation, machine learning and information technology and to provide an engaging forum for academicians, experts, researchers, scholars, leaders, students, practitioners and business professionals . We hope that this conference will provide a stimulating avenue to learn, exchange ideas of human cognitive thought, network and embrace scientific principles behind AI and its applications. We invite you to come along – be involved, stimulated, challenged and inspired !

### Topics for National Conference (Not Limited to....)

1. Internet of Things (IoT)
2. Wireless Networks and Allied Areas
3. Big Data and Analytics
4. Data Warehousing & Data Mining
5. Cloud Computing
6. Semantic Web Analytics
7. Machine
8. Artificial Intelligence
9. Intelligent Bioinformatics
10. Block Chain
11. Secure Testing
12. Secure Software Engineering
13. Computational Intelligence
14. AR & VR
15. Media & Digital Learning

### Tracks

1. Computer Networks and Communication
2. Artificial Intelligence
3. Algorithm and Optimizations
4. Cloud and Network Security
